Questions and Answers for Clarification

The State has determined that it is in their best interest, and those of offerors, to provide all bidders questions and answers to any questions posed pre- and post-conference.

Question: I had a question in regards to the T1 connection. Does that line need to be independent? We currently go through our corporate office which has the fire wall? Does this create a problem? I have looked at the RFP and I cannot find specifics regarding the T1 connection to the State and the requirements?

Answer: The T1 line connection would be fully reimbursed. ADHS will assess the capacity of the current lines to carry the necessary data. If sufficient, ADHS would pay for a portion of the current corporate line, if the capacity could not be met, then a new line would be needed. Also, ADHS will need to work with the agency IT staff to utilize their network and pass through their firewall. The WIC staff will enable this to occur, and all expenses and equipment needed will be met and provided. Recommend that indicate the cost of a dedicated T1 line between their agency and the state of Arizona in the proposal.

Vendor hereby acknowledges receipt and understanding of above amendment
